Section 5. Comments

What was the most positive aspect of the way in which this instructor taught this course?

Comments
Cody Turner does a great job of presenting information in such an interesting way that I was always looking forward to attending class. I think the material he presents and our course learning objectives were so interesting and I learned a lot more than I anticipated, it is definitely a class I would take again.
letting students discuss with others different topics
I really enjoyed all of the discussions I had with the professor and my fellow peers.
He allowed discussion of the topics and small groups and then a large group discussion so that you could hear everyone's opinions. He also asking probing questions during the discussion to further the conversation.

What can this instructor do to improve teaching effectiveness in the classroom?

Possibly less written work as this is a 1 credit course and I felt that the work piled on towards the end of the semester on top of finals.
No improvements necessary.

Please write any comments you have about the course or course materials.

Comments
This was an excellent course! The instructor made the class very engaging with the presentations and students were able to learn a lot and think more critically about new topics.
All the topics were pertinent to our studies in computer science, but relating it to modern ethics and technologies just made it so much more encaptivating.
good resources to read up on
The only thing is I was not ready for long essays. It is not a W class so I was not expecting to have to write long essays. I'm bad at writing and it gave me some anxiety.

For courses with laboratory and/or discussion sections: were the laboratory/discussion sections helpful to your learning?
